

Coronavirus COVID-19 Resource Dashboard Detailed Documentation

Last updated: 03/27/2020 7:00PM

COVID-19 Resource Center - Summary

Topics: COVID-19

Applications: Beaker Lab, EpicCare Inpatient and Ambulatory

Epic Records: R IDM 126991

Consumers: Executives, Directors, Managers

Scope: As needed for decision-making

Reporting tools: Cogito, SlicerDicer, external reports

First Available Date: 03/18/2020

Executives and managers can use the COVID-19 Resource Center to view crucial data for decision-making and review trends for key metrics related to COVID-19. These metrics include counts of inpatients and outpatients with positive results, pending testing, and negative results, volume of COVID-19 tests in the past 24 hours and total, average test turnaround time (TAT), counts of orders not collected, counts of specimens not received in the lab, ED visits, outpatient appointment and no-show counts, and telehealth appointment counts.

All Positive Patients

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - ALL Patients with Positive Coronavirus COVID-19 Aggregated Results (Since 03/01/20)	5549192	Find Orders [440]	Positive Patients by Facility

Left Column

Message Board

All Positive Patients

Positive IP and OP

All Positive Patients by Result Date

Pending Tests

Average TAT by Facility and Destination Lab

Definition

This component shows all patients with positive results for any Coronavirus COVID-19 test, with grand total and counts by Facility.

Logic

This component looks for all COVID-19 orders with final, abnormal results.

- Technical:* Search basis Patient ADT Status equals ANY AND Procedure Name (I ORD 40) equals CORONAVIRUS, COVID-19 (LABCORP) OR MISCELLANEOUS LAB TEST OR CORONAVIRUS, COVID-19 (REFERENCE LAB) AND Abnormal? (I ORD 130) equals Abnormal AND Order Status (I ORD 90) equals Verified or Completed AND Order display name (I ORD 46) contains Coronavirus OR COVID AND Specimen ID (I ORD 320) exists

Data this component returns

This component shows badges for total positive patients and total positive patients (IP and OP) by facility. Facility is defined by the facility where the patient was when the COVID-19 order was placed.

[Return to Dashboard Component List](#)

Positive IP and OP

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - ALL Patients with Positive Coronavirus COVID-19 Aggregated Results (Since 03/01/20)	5549192	Find Orders [440]	All Positives by Admit then Facility

Left Column

Message Board

All Positive Patients

Positive IP and OP

All Positive Patients by Result Date

Pending Tests

Average TAT by Facility and Destination Lab

Definition

This component shows all patients with positive results for any Coronavirus COVID-19 test, by patient current admission status.

Logic

This component looks for all COVID-19 orders with final, abnormal results.

- Technical:* Search basis Patient ADT Status equals ANY AND Procedure Name (I ORD 40) equals CORONAVIRUS, COVID-19 (LABCORP) OR MISCELLANEOUS LAB TEST OR CORONAVIRUS, COVID-19 (REFERENCE LAB) AND Abnormal? (I ORD 130) equals Abnormal AND Order Status (I ORD 90) equals Verified or Completed AND Order display name (I ORD 46) contains Coronavirus OR COVID AND Specimen ID (I ORD 320) exists

Data this component returns

This component shows badges for total currently-admitted patients (IP) and total not currently-admitted patients (OP).

[Return to Dashboard Component List](#)

All Positive Patients by Result Date

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - ALL Patients with Positive Coronavirus COVID-19 Aggregated Results (Since 03/01/20)	5549192	Find Orders [440]	Positive Patients by Result Date and Ordering Facility

Left Column

Message Board

All Positive Patients

Positive IP and OP

All Positive Patients by Result Date

Pending Tests

Average TAT by Facility and Destination Lab

Definition

This component shows all patients with positive results for any Coronavirus COVID-19 test, by test final verification date. **NB:** in order to aggregate results for the changing COVID-19 ordering processes since 02/15/20 and to rectify destination labs for other dashboard components, several result corrections were authorized to make updates to tests. For most tests, the date results are reported will equal final verification date, but for result corrections result date may not equal verification date.

Logic

This component looks for all COVID-19 orders with final, abnormal results.

- Technical:* Search basis Patient ADT Status equals ANY AND
Procedure Name (I ORD 40) equals CORONAVIRUS, COVID-19 (LABCORP) OR MISCELLANEOUS LAB TEST OR CORONAVIRUS, COVID-19 (REFERENCE LAB) AND Abnormal? (I ORD 130) equals Abnormal AND
Order Status (I ORD 90) equals Verified or Completed AND
Order display name (I ORD 46) contains Coronavirus OR COVID AND
Specimen ID (I ORD 320) exists

Data this component returns

This component shows a graph of unique patients with positive results by final verification date and facility. **NB:** if one patient had multiple positives on different dates, the counts on this graph could show slight discrepancies with the total counts on All Positive Patients and Positive IP and OP components.

[Return to Dashboard Component List](#)

Pending Tests

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - COVID-19 Pending Tests	5526405	Find Lab Test Results [51668]	Collected CoVID-19 Tests by Collection Date

Left Column

Message Board

All Positive Patients

Positive IP and OP

All Positive Patients by Result Date

Pending Tests

Average TAT by Facility and Destination Lab

Definition

This component shows all tests for COVID-19 that are pending (i.e. that have been collected but not yet final verified by the lab). **NB:** "[No Value]" usually indicates the specimen has not yet been sent out to the testing lab.

Logic

This component looks for pending COVID-19 tests, excluding canceled and verified tests.

- Technical:* QC specimen (I OVS 500) not equal to Yes AND
Test (I OVR 76) equals Coronavirus, COVID-19 [1230102051] OR Coronavirus, CoVID-19 (non-interfaced reference lab) [1230102052] OR Miscellaneous Test [17] AND
02/15/20 ≤ Date collected (I OVS 100) ≤ T AND
Order status (I ORD 90) equals Sent OR Resulted OR Pending OR Pending Verify AND
Order Display Name (I ORD 46) contains Coronavirus OR COVID

Data this component returns

This component shows pending test counts with breakdown by order location, then destination lab, then specimen collection date in tabular format. It also displays totals in badge format.

[Return to Dashboard Component List](#)

Average TAT by Facility and Destination Lab

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - Coronavirus COVID-19 All Tests TAT (Since 03/01/20)	5533772	Find Lab Test Results [51668]	Average TAT

Left Column

Message Board

All Positive Patients

Positive IP and OP

All Positive Patients by Result Date

Pending Tests

Average TAT by Facility and Destination Lab

Definition

This component shows average turnaround time (TAT) for COVID-19 tests that have been collected since 03/01/20.

Logic

This component looks for all COVID-19 tests collected from 03/01/20 to the current date, excluding canceled tests.

- *Technical:* QC specimen (I OVS 500) not equal to Yes AND
Test (I OVR 76) equals Coronavirus, COVID-19 [1230102051] OR Miscellaneous Test [17] OR
Coronavirus, CoVID-19 (non-interfaced reference lab) [1230102052] AND
 $03/01/20 \leq \text{Date collected (I OVS 100)} \leq T$ AND
Order status (I ORD 90) not equal to Canceled AND
Order display name (I ORD 46) contains Coronavirus OR CoVID

Data this component returns

This report shows the following TAT averages, grouped first by order facility and then by destination lab.

- Ord-Coll is Ordered to Collected elapsed time
- Col-1Rec is Collected to First Received elapsed time
- 1Rec-2Rec is First Received to Last Received elapsed time (2Rec is time when specimen is marked ready for sendout)
- 2Rec-Verify is Last Received to test Final Verified elapsed time.

Inpatients with Active COVID-19 Infection Flag

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - Inpatients with Active Coronavirus COVID-19 Infection Flag	5531570	FIND IP Patients Generic Criteria [34010]	Admitted Patients with CoVID-19 Infection

Center Column

Inpatients with Active COVID-19 Infection Flag

Pending Testing on Inpatients

Pending Testing on Inpatients, by Admit Date

Negative Inpatients

Tests and Unique Patients Collected in Past 24 Hours

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received (Older than One Day)

Definition

This component shows any currently-admitted inpatients with an active infection flag for COVID-19.

Logic

This component looks for any currently-admitted inpatients with an active infection flag for COVID-19.

- Technical:* Search Base Admitted Patients by Hospital AND
Location: Hospital (I EAF .1) equals {Insert Hospitals Here} AND
Infection: Active Infections (I EPT 10375) equals COVID-19

Data this component returns

This component shows MRN, Admit Date, Unit, Room/Bed, Facility, and Break the Glass status for all current inpatients with an active COVID-19 infection flag.

[Return to Dashboard Component List](#)

Pending Testing on Inpatients

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - Inpatients with Pending Coronavirus COVID-19 Test (Aggregated) (Since 03/01/20)	5546486	Find Orders [440]	Inpatients with Pending COVID-19 Test by Facility

Center Column

Inpatients with Active COVID-19 Infection Flag

Pending Testing on Inpatients

Pending Testing on Inpatients, by Admit Date

Negative Inpatients

Tests and Unique Patients Collected in Past 24 Hours

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received (Older than One Day)

Definition

This component shows all currently-admitted patients with pending COVID-19 orders (i.e., orders is not canceled or final verified by the lab). **NB:** This report uses the Find Orders template. There may be slight discrepancies with the Pending Tests component in the left column (which uses Find Lab Test Results template).

Logic

This component looks for currently-admitted patients since 03/01/20 to the current date with pending COVID-19 orders, excluding cancels and verified orders.

- Technical:* Search Basis equals Admitted Patients – 03/01/20 ≤ Order Time Range ≤ T AND
Location: Hospital (I EAF .1) equals {Insert Hospitals Here} AND
Procedure Name (I ORD 40) equals CORONAVIRUS, COVID-19 (LABCORP) OR MISCELLANEOUS LAB TEST OR CORONAVIRUS, COVID-19 (REFERENCE LAB) AND
Order status (I ORD 90) equals Sent OR Pending OR Pending Verify OR Resulted AND
Order display name (I ORD 46) contains Coronavirus OR COVID AND
Specimen ID (I ORD 320) exists

Data this component returns

This component shows the counts of currently-admitted patients with pending COVID-19 orders in badge format, with grand totals and counts by ordering facility.

[Return to Dashboard Component List](#)

Pending Testing on Inpatients

Pending Testing on Inpatients, by Admit Date

Negative Inpatients

Tests and Unique Patients Collected in Past 24 Hours

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received (Older than One Day)

Definition

This component shows all currently-admitted patients with negative COVID-19 results.

Logic

This component looks for any currently-admitted patients with negative COVID-19 results since 03/01/20 to the current date.

- Technical:* Search Basis equals Admitted Patients – $03/01/20 \leq \text{Order Time Range} \leq T$ AND Location: Hospital (I EAF .1) equals {Insert Hospitals here} AND Procedure Name (I ORD 40) equals CORONAVIRUS, COVID-19 (LABCORP) OR MISCELLANEOUS LAB TEST OR CORONAVIRUS, COVID-19 (REFERENCE LAB) AND Order status (I ORD 90) equals Verified OR Completed AND Abnormal? (I ORD 130) does not exist AND Order display name (I ORD 46) contains Coronavirus OR COVID AND Specimen ID (I ORD 320) exists

Data this component returns

This component shows the counts of currently-admitted patients with negative COVID-19 results in badge format, with grand totals and counts by ordering facility.

Tests and Unique Patients Collected in Past 24 Hours

Tool	Report Name	HRX	Report Template	Summary Name
Cogito	Beaker Lab - Coronavirus COVID-19 All Tests Collected (Past 24 Hours)	5530094	Find Lab Test Results [51668]	Tests Status Summary (ALL Tests)

Pending Testing on Inpatients

Pending Testing on Inpatients, by Admit Date

Negative Inpatients

Tests and Unique Patients Collected in Past 24 Hours

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received (Older than One Day)

Definition

This component shows total counts of COVID-19 tests and unique patients **collected in the past 24 hours** in any status (i.e., on test, resulted, verified), excluding cancels. **NB** that this component displays specimens collected 24h prior to the time at which it is viewed and thus fluctuates depending on the viewing time.

Logic

This component looks for all COVID-19 tests collected in the past 24 hours, excluding canceled tests.

- Technical:* QC specimen (I OVS 500) not equal to Yes AND
Test (I OVR 76) equals Coronavirus, COVID-19 [1230102051] OR Miscellaneous Test [17] OR
Coronavirus, CoVID-19 (non-interfaced reference lab) [1230102052] AND
T-1, N ≤ Specimen Group Date and Time collected (I OVS 51502) ≤ T, N AND
Order status (I ORD 90) not equal to Canceled AND
Order display name (I ORD 46) contains Coronavirus OR CoVID

Data this component returns

This component shows the counts of COVID-19 tests and unique patients in tabular format (grouped first by test status and then by collecting facility) and in badge format (totals).

[Return to Dashboard Component List](#)

Tests and Unique Patients Totals

Pending Testing on Inpatients

Pending Testing on Inpatients, by Admit Date

Negative Inpatients

Tests and Unique Patients Collected in Past 24 Hours

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received (Older than One Day)

Definition

This report shows total number of COVID-19 tests in any status (on test, verified) and the unique patients, excluding canceled tests.

Logic

This component looks for all collected COVID-19 tests, excluding canceled tests.

- *Technical:* QC specimen (I OVS 500) not equal to Yes AND
Test (I OVR 76) equals Coronavirus, COVID-19 [1230102051] OR Miscellaneous Test [17] OR
Coronavirus, CoVID-19 (non-interfaced reference lab) [1230102052] AND
Order status (I ORD 90) not equal to Canceled AND
Order display name (I ORD 46) contains Coronavirus OR CoVID

Data this component returns

This component shows the counts of COVID-19 tests and unique patients in tabular format (grouped first by ordering facility, then test status, and then result abnormality) and in badge format (grand totals). **NB:** For the results (last subgrouping): **Abnormal = Detected** and **[No value] = Not Detected** for **Verified** tests, and **not yet resulted** for **On Test** or **Resulted** tests.

Inpatients with Active COVID-19 Infection Flag

Pending Testing on Inpatients

Pending Testing on Inpatients, by Admit Date

Tests and Unique Patients Collected in Past 24 Hours

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received (Older than One Day)

Definition

This component shows any COVID-19 orders that have been released by hospital staff but not yet collected to help identify orders needing collection.

Logic

This component looks for any COVID-19 orders older than 0 days but newer than 15 days.

- Technical:* Ordering date is older than 0 days AND
Ordering date is newer than 15 days AND
Procedure (I ORD 40) equals CORONAVIRUS, COVID-19 (LABCORP) [LAB4944] OR
CORONAVIRUS, COVID-19 (REFERENCE LAB) OR MISCELLANEOUS LAB TEST [LAB000] AND
Order display name (I ORD 46) contains Coronavirus OR COVID

Data this component returns

This component shows the number of orders that have not been collected. For each order ID, it shows Patient MRN, Ordering Department, Authorizing Provider, and Time elapsed since ordering.

Tests and Unique Patients Totals

Orders Not Yet Collected

Containers Collected but Not Yet Received
(Older than One Day)

Definition

This component shows any COVID-19 containers that have been collected but have not yet been received by a lab that are older than one day. This data identifies COVID-19 containers that may be lost or misplaced and need to be found and sent to the lab, or orders that need to be canceled.

Logic

This component shows any COVID-19 containers that have been collected but have not yet been received by a lab that are older than one day.

- *Technical:* 03/13/20 ≤ Event LAB COLLECTION DETAILS UPDATED < T AND
Last Received Date: Field is blank
Test (I OVR 76) equals Coronavirus, CoVID-19 (LabCorp) OR Coronavirus, CoVID-19 (non-interfaced reference lab) OR Miscellaneous Test AND
Validation status (I OVS 38) not equal to 10-Canceled AND
Order display name (I ORD 46) contains Coronavirus OR COVID

Data this component returns

This component shows the collection date, collection department, and collector for each container that has not yet been received. 17
